

Parish Council Approved Action Plan for White Lion Meadow Community Open Space

Approved at Parish Council Meeting 14th April 2022

The White Lion Meadow land was gifted to the people of Lyonshall via the Parish Council. Two consultations were carried out so that the local residents could have their say. This plan has been drawn up from the responses to the consultations. The Parish Council (PC) will be the owners of the land and therefore ultimately responsible. The Steering Group will be responsible for the implementation of the work. Organised activities such as volunteer working will be covered by the PC insurance.

The site will be used as an environmentally friendly, wildlife site –

Flora – native trees, plants and the provision of suitable conditions for natural regeneration.

Fauna – habitats will be provided for wild creatures of all sizes. Safe corridors will be maintained for transit of creatures.

People – some access is required including for disabled people and buggies. Seating will be provided.

Information about the project will be provided by the Steering Group to the PC and the residents as work progresses. The project is long-term and evolving.
